

MLG25 Supplement

This supplement is meant to be used in conjunction with the Magnum Operating & Parts Manual(s) provided with the unit. Please refer to the Magnum Operating & Parts Manuals for complete operation and safety instructions!

Introduction

This supplement is to be used in addition to the Magnum manual (Part Number #12346, Rev. G) received with your unit. Make sure to read and fully understand all safety and operating instructions in the Magnum Operating manual before attempting to operate the equipment.

Operation Correction

The following text should replace the text that is currently present on page 20, under the heading “MLG ENGINE CONTROLLER.” The MLG25 is not governed by a Governors America Corps. (GAC) controller.

MLG ENGINE CONTROLLER

The Magnum Digital Controller (MDC) constantly monitors vital engine functions for a number of operation, alarm and fault conditions. When an operation, alarm or fault condition occurs, the LCD display will alert the operator either visually or audibly. Press the “ Scroll-Up button (on the diagnostic keypad) to view the “Alarm List.” This will allow you to view a description of the fault (See Figure 1).

Parts

The following table lists changes made to the MLG25 since publication of your manual. The table includes added and deleted parts, as well as when they were changed and the page in the manual that the original (deleted) part can be found. Any part being deleted without adding a part means the part is no longer used on the unit. Any part being added without deleting a part means the part has not previously been used on the unit.

Date	Page No.	Item No.	Part No.	Added	Deleted	Notes
07.31.09	31	N/A	29001	1		Decal, tire loading
